

# Style Guide

## MAKING AWESOME EXAMPLE

I'm happy to report that Making Awesome has secured new space and will be reopening soon. The new space is at 1009 Commercial Dr. in Railroad Square.

### Typography:

Droid Sans Regular / Bold

The Making Awesome name should be displayed in the following ways:  
Standalone: One of the above corrected boxes with or without logo and additional information as appropriate.

As a Headline: All caps, Bold, with -25 tracking. (see left)

In Text: capitalized as "Making Awesome" (see left)

Copy should be justified (last line left) if possible, otherwise aligned left.

### Colors:

Our logo and posters should be displayed in black or warm yellow. Any combination of black, yellow, and white is proper excepting a white logo on either color.

### Notes:

The angled logo is at 22.5 degrees, or 1/16th turn counter-clockwise.
